# DEPARTMENT OF BRIDGES, A CITY VERMIFORM APPENDIX, NEEDS SURGICAL OPERATION

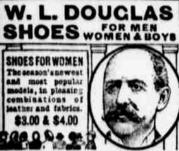

By Lopping It Off a Saving of Over \$200,000 May Be Saved the Overburdened Taxpayers - Let Borough Presidents Do Work or

The Department of Bridges, which is a charge on the city, in this year's budget, of \$609,269, is a sort of vermiform appendix in the machinery of government and can be removed therefrom without injury to the bridges or the municipality in general. By combining the Department of Bridges with the Department of Docks and Ferries, or merging it into the offices of the various Borough Presidents, there could be effected to the taxpayers a saving of over \$200,000.

There has been talk among city Meials of combining the Bridge Da. lete. The only objection that can be advanced to this is that the administration machinery of the Department of Bridges should be kept intact because of the impending necessity of making extensive repairs on the Brooklyn Bridge. Officials who favor hurrying up the plan of getting rid of the Department of Bridges as a separate department in the Government claim that this work can be done just as well under a merger proposition. Repairing an old bridge is an engineering matter presenting no stupendous problems.

There would also be effected by a merger either with the Dock Department, and Magistrate Finished It.

Under the proposed merger plan the blacksmiths, riveters, ironworkers, painters and other employees necessary to the proper maintenance of the bridges would be retained. The saving would be made in wiping out a couple of hundred thousand dollars worth of overhead charges, which in view of the fact that New York City wants no more bridges and is now concerned only in caring for what she has, entail needless expense to the taxpayers.

Heavy Sea and Brought Ship to This Port.

Captain Simone Gull, of the Italian having been chased by a submarine in the Mediterranean on Nov. 19, said a heavy sea, which caused the subchief factor in enabling the Verona to elude the undersea boat.

Captain Guli said the submarine did not fly a flag, nor did it appear to have a number, and he said there was no way he could tell whether it was a German or an Austrian submarine. Other officers, however, exressed the belief that the craft was German U-Boat.

"We were about 110 miles west of the Straits of Honafacto on Nov. 19, said Captain Gull, "when a large submarine appeared on the surface about two miles off our starboard side, and slightly astern. There were no signals, and I immediately put on all speed possible, and steered a course so that the submarine would be forced to take the heavy sea at a quartering angle.

Canadian Pacific earnings to 4th week of November from July 1, increased \$5,272,000, for them. Insist on Carter's Little and she simply cannot become a Greek dancer. She is too sophisticated. When I dance f don't think any more about my body than Mr. Paderewski thinks of the piano on which he plays. My body is my instrument, my orchestra, that's all. I never look at my audience. I hardly know they are there. Dancing is unconscious, unstudied, movement to music. Stereotyped motion is unnatural, ugly. The ballet is a horror, it is possible to dance any piece of music thirty or forty different ways and I don't think I have ever siven a dance the same way twice.
